SDI RIVA STAR AQUA

NEXT GENERATION SDF: RIVA STAR AQUA

SDI continues to innovate SDF solutions by releasing Riva Star Aqua, a next generation water based silver fluoride solution that is also as effective as an SDF solution, with additional patient benefits.

Similar to Riva Star [SDF], Riva Star Aqua [AgF] is also a non-invasive 2 step patented system used to desensitize tooth pain in a few drops. Riva Star Aqua is an aqueous silver fluoride solution without the Ammonia base.

Just like Riva Star, Riva Star Aqua includes a Potassium Iodide [KI] Step 2 solution, for significantly reducing unsightly black stains.
